## Underground Gas Line Inspection and Leak Detection

**Quotes due March 3, 2014 @ 10:00 a.m.**

**Fax to Debbie Norkevicus at (412) 456-5007**

### Scope of Work

Provide the Following:

#### Part 1 Annual Services provided by Vendor:

- Contractor should have two Operator Certifications, one for leak detection and one for the location, atmospheric corrosion, flame ionization and main locating under Federal regulations section 191 and 192.
- Work will be performed at all HACP Communities on a three year rotating schedule.
- Work will consist of approximately 16,000' to 18,000' of medium to low pressure under-ground gas lines and risers, with approximately 220 services over a three rotating schedule. (What is the Term of the Contract?)
- HACP will provide blueprints, as lines will need to be identified, traced and tested.
- Provide copies of test results to HACP.
- Any deficiencies will be noted on the written reports

#### Part 2 Call Out Services to be provided (One (1) hour response time):

- Gas leakage Detection
- Water leakage Detection
- Gas leakage Pinpointing
- Water Leakage Pinpointing
- Odor Complaint Investigation
- Corrosion Control Investigation
- Valve Box Locating
- Valve Box Maintenance
- Underground Facility Mark Outs
- Incident Investigations
- Stray Gas Investigation

#### Part 3 Other Services (Scheduled)

- Perform investigative Leak Detection Services as requested

**Please contact Debbie Norkevicus at 412.456.5000 ext 8505 or [Debbie.Norkevicus@HACP.org](mailto:Debbie.Norkevicus@HACP.org) with any questions about the above scope.**
