SCOPE OF WORK

1. In the Community Room, a door to the exterior is being stopped from opening and closing properly due to the patio concrete swelling and pushing the threshold against the bottom of the door.
 - a. The threshold shall be removed and the concrete grinded down. A new threshold is to be installed, so that the door will be open and closed properly (3 sq. ft).
2. Water is leaking around the sleeve of the main water supply line. The water is coming from ground water from the outside.
 - a. The Contractor is to excavate the area where the pipe enters from the outside and properly seal around the pipe and sleeve. A drain will also be installed to drain ground water to the parking lot (8 to 10 feet deep)
3. A hose bib install on the water supply line does not completely shut off, causing a leak.
 - a. The hose bib is to be removed and a new hose bib properly installed.
4. The floor of the basement shall be prepared and painted (400 sq. ft).
5. Inside the basement room, the wall around the entering water pipe shall be cleaned removing all evidence of stains, dirt and foreign materials (20 sq. ft).
6. Concrete shall be placed in the garbage compactor room (near entrance door to the basement) so that water will run the floor to drain located under the garbage dumpsters (100 sq. ft).
7. No debris is to be place in any HACP trash receptacles/dumpsters.
8. Contractors are responsible for obtaining all required permits.
9. All work area will be left neat and clean at the end of each work day.
10. Davis Bacon Wages apply.
