## Scope of Work

Provide HACP with services for the sale of Renewable Energy Credits (RECs) generated from the Bedford Envision Center solar panel system. The Bedford Envision Center is located at 2305 Bedford Avenue, Pittsburgh PA 15219. The Bedford Envision Center solar panel array consists of 72 solar panels with a total size of 26.6 kW. The panels were installed by EIS Solar and went operational in February of 2020. The solar panel system generated 16.89 MWh of electricity in its 12 months of operation.

The Housing Authority City of Pittsburgh (HACP) is looking to enter into a multi-year contract with a REC aggregator for the sale of RECs generated at the Bedford Envision Center from 2020, 2021, and beyond.

Interested vendors must provide their total service costs and fees, length of the contract offered, basis on which RECs are sold (monthly, quarterly, annually, etc.), and total value that HACP will receive from the RECs after the vendor's fees.

For more information or questions, please contact Samantha Tirk@ 412-456-5000 x2900 or [Samantha.Tirk@HACP.org](mailto:Samantha.Tirk@HACP.org)
