Workers' Compensation Insurance

RFP #650-24-25

ADDENDUM NO. 1

This addendum, issued November 26, 2025, becomes in its entirety a part of the Request for Proposals RFP #650-24-25 as is fully set forth herein:

Item 1: Q: To prepare formal quotations, please provide the following information by 11/24/25. Experience Mod worksheets for 2024 and 2025?

A: **Please see Attached.**

Item 2: Q: Five years of currently valued loss runs?

A: **Please see Attached.**

Item 3: The due date, time, and location remain unchanged on December 12, 2025, at 10:00 a.m., at the HACP Procurement Dept., 412 Boulevard of the Allies 6th Floor, Pittsburgh, PA 15219.

Item 4: The Housing Authority of the City of Pittsburgh will **only accept physical proposals dropped off in person from 8:00 AM until the closing time of 10:00 a.m. on December 12, 2025**, in the lobby of the One Stop Shop at 412 Boulevard of the Allies, Pittsburgh, PA 15219.

Proposals may still be submitted electronically via:

<https://www.dropbox.com/request/5qhguCuWkL3FFeYRS5yW>

Sealed proposals may still be mailed via USPS at which time they will be Time and Date Stamped at 412 Boulevard of the Allies, 6th Floor - Procurement, Pittsburgh, PA 15219. All proposals must be received at the above address no later than December 12, 2025, at 10:00 a.m. regardless of the selected delivery mechanism.

END OF ADDENDUM NO. 1

Mr. Brandon Havranek
Associate Director of Procurement/Contracting Officer

Experience Rating Plan Overview

The Experience Rating Plan is designed to forecast based on past experience whether a qualifying employer will develop better or worse losses than the average employer in a particular classification. The minimum premium threshold that an employer must meet to qualify for participation in the plan is \$5,000. To improve the accuracy and stability of the experience modification (mod), we have focused on optimizing credibility, expected loss ranges, split point, and L factor (Limit Charge), which are four crucial components of the Plan. The PCRB experience rating formula is: $[Ap \times C + E \times C \times L + E(1.000 - C)]/E$.

Definitions

Actual Losses (A): Total reported losses (or losses as reported) from all claims (indemnity and medical) as of the valuation date.

Actual Primary Losses (Ap): Total reported losses from all claims limited by the split point for individual claims exceeding this amount.

Credibility (C): The statistical weight or level of confidence assigned to an employer's loss experience.

Expected Losses (E): Expected losses are determined by multiplying each classification's total payroll (per \$100) by the Expected Loss Rate factor. For the non-payroll classes, the class exposure is multiplied by the Expected Loss Rate factor.

Expected Loss Rate: The anticipated average cost of benefits, per \$100 of payroll, for a classification during the experience period.

Final Modification: The modification calculated after applying any necessary capping rules, if required.

Indicated Modification: The calculated modification derived from the formula before applying any capping rules.

Limit Charge (L): The limit charge is calculated using the established excess loss factor calculation, utilizing empirical data from the experience period, and is updated annually. Limit charge divides Expected Loss into primary and excess loss portions. Previously, it was referred to as "L x C".

Number of Claims: The total number of claims reported as of the valuation date for the experience period.

Loss Free Mod: Modification factor assigned to an employer with no losses during the experience period.

Maximum Mod: Highest modification factor that can be assigned to an employer based on a formula specified in the experience rating plan. It serves as a cap on the modification factor calculation. Max Mod 10 indicates that the maximum mod is 10 or higher. $\text{Max Mod} = 1.10 + 0.0004 (E/G)$, where G equals 10. The value of G represents the state average claim severity (in thousands of dollars).

Premium Adjustment Factors: The premium for the policy may be adjusted by a Construction Classification Premium Adjustment factor or Certified Safety Committee Credit.

Split Point: A specific dollar threshold used to separate the primary losses from the excess losses. The split point varies (ranging from \$10,000 to \$300,000) based on the size of the employer (measured by payroll) and is intended to reflect varying risk potential. Formerly the Maximum Primary Loss Value, which was the same value of \$42,500 regardless of the size of the employer.

Capping Rule

The capping rule applies maximum limits or restrictions on the modification factor. During a transition period post-implementation of the new experience rating plan that will run during the period from 4/1/2024 to 3/31/2026, the current capping rules utilizing +/-25% swing limits and secondary capping will remain in effect. However, when use of the existing capping rule would result in a modification that exceeds the maximum modification allowed under the new plan, that lower, maximum modification will be the final modification. After this transition period, the capping rule will only consider the maximum modification and a +40% swing limit.
