HACP Procurement Department

The Housing Authority of the City of Pittsburgh (HACP) is excited to announce that HACP is transitioning to a new, state-of-the-art eProcurement platform, EUNA/Bonfire, effective November 9th.

This upgrade is designed with your experience in mind, offering a much more user-friendly interface and greater efficiency to streamline your engagement with our procurement opportunities.

Please be advised that on November 9th, our legacy procurement website will be officially retired. To ensure you do not miss any upcoming opportunities and can continue bidding on HACP projects, prompt registration on the new platform is crucial.

You can register now at https://hacp.bonfirehub.com/portal/?tab=openOpportunities. Please click the "Register as a vendor" button located in the upper right of the page.

We appreciate your continued partnership and look forward to collaborating through this improved system.
